
Driving Lessons

- At Emile driving school we teach student how to drive responsibly with basic driving. We prepare are student from the beginning to until their road test. We prepare student for different categorize.
- The first is the predriving check; students must understand every aspect of the car, inside and out. Or be familiar the gear in the interior of the car, such as the mirrors, the hand brake, the wheel ,the accelerator , brake pedal, the different types of lights, and signals. Student must know and understand hand signal as well. One of the basic parts of driving is starting and stopping.
- Our students must grasp the concept of starting and stopping before the move on to more difficult things like parallel parking, backing up approximately 50 to 100 feet, left-right turns, start/stop/turn vehicle on hill,. And three point turns. Our student will master these aspects until they actually perform on the road. They will learn how to have good driving rules before Enter and leave a intersection, Recognizing and obey traffic signs, light and signal and having high way driving ability.
- Our instructors are very patient with their students on achieving these goals. With their passion for teaching, instructors brings up much more than driving skills but confidence with in there student so they can achieve much more out of life.
